

When Gets Home to Dinner on Time the Dinner is Always Late Judging From Some Scraps of Conversation We Have Overheard

HEAVIER WAR TAX MAY BE IN FORCE BEFORE WINTER

Congressman Hill Predicts a \$3-600,000,000 Levy

PRESENT BILL ONLY A STARTER

Among Other Appropriations to Be Expected are Millions for Families of Soldiers.

Washington, May 14.—Representative Ebenezer J. Hill of Connecticut, a Republican member of the Ways and Means Committee, warned the House today that the impending war taxation bill was only a start in the taxation this country must stand because of the war with Germany, and that another revenue bill probably must be passed next December.

"I have no doubt," said Mr. Hill, "that notwithstanding the \$1,800,000,000 we raise this year by this bill, we shall be called upon to raise \$3,600,000,000, or double the amount of taxes next year."

"I think our expenditures this year will be \$10,000,000,000, counting the cost of financing the Allies, and I think next year it will be \$15,000,000,000, counting the cost of financing the Allies. We might as well face this proposition like men, and not haggle about a tax on jewelry, a tax on automobiles, and this tax and that. The tax is going to come anyhow before you get through with it."

MURDER AND SUICIDE

Police Theory of Springfield Tragedy Made Public

Springfield, May 15.—The police have practically determined that the triple tragedy which occurred in the basement apartment at 79 Byrre street Sunday, was a case of double murder and suicide. Investigations made by the police yesterday brought to light evidence which strongly points to Miss Nell Cushman, the housekeeper in the Gordon apartment, as the murderer. Miss Cushman also took her own life, leaving absolutely no explanation of her object in poisoning Clifford Gordon, the six-year-old son of Mrs. Bertha Gordon, and Miss Hilda Francis, a roomier in the apartment. The police stated yesterday that they had gathered evidence which showed that Miss Cushman had been ill for some time and had frequently threatened to take her own life.

5,000 TROOPS AT FORT

Regulars, Regiment of Guardsmen and Recruits.

Burlington, May 11.—Things are speeding up at Fort Ethan Allen and it is now one of the busiest places in Vermont. There are now at post 2,400 recruits. Wednesday night about 9 o'clock 450 arrived. The recruits were mostly for the cavalry and arrived from Fort Slocum, Columbus Barracks, Fort Jefferson. The largest number is coming from Fort Slocum, situated near New York. At present, with militia, regulars and recruits, there are between 4,000 and 5,000 troops there.

The post has plenty of supplies on hand and the equipment has thus far been ample but the officers only expected 1,500 and it is something of a problem to take care of the unexpected ones who continue to pour in.

The men are placed in the field and are lodged most anywhere near the barracks.

The 2,400 recruits with the Second Cavalry give Fort Ethan Allen a larger male population than all but a few towns in Vermont.

CENSORSHIP LOST IN THE SENATE BY SMALL MARGIN

Espionage Bill Shorn of Drastic Provisions

NOT TO RESTRICT USE OF CEREALS

Measure Goes Through Senate By Vote of 77 to 6—Authorizes Embargo on Exports.

Washington, May 15.—The administration espionage bill, shorn of the press censorship and prohibition sections, was passed by the senate last night, 77 to 6. Senators Borah of Idaho, France of Maryland, Gronna of North Dakota, La Follette of Wisconsin, Sherman of Illinois and Vandaman of Mississippi voted against the bill. The measure was sent to conference immediately—the house having passed an espionage bill different in many particulars. The senate yesterday, 47 to 37, struck from the bill an amendment forbidding use of cereals and grain in the manufacture of intoxicants during the war. In another and probably final vote on newspaper censorship, the senate yesterday afternoon defeated a motion to restore a modified censorship provision in the espionage bill. The vote was 48 to 34.

In announcing that he had changed his mind and would vote against including even the modified provision, Senator Lodge of Massachusetts, assailed the new bureau of public information. "I had felt that some proper protection should be provided against publication of information useful to the enemy," he said. "But I have since examined publications of the bureau of information, which I take is the board of censors, and I conclude it would be far better not to permit that board to exclude practically everything from the newspapers of the country. The right to go into the courts is no protection. I do not care to leave publications in the newspapers to the mercy of that board."

Dr. Dean was graduated from the Bennington High school in the class of 1910 and is a graduate of the Albany Medical college. Reports of Seeger's death on April 4 or 5 were received in this country recently.

A volume of Seeger's works was published in this country recently.

FIRE AT BRIDGE GUARD

Soldiers in Hoosick Exchange Shots With Unknown Man.

There was an encounter last night between the military guard at the long Boston and Maine bridge a short distance beyond the Vermont state line. Some reports were that as many as thirty shots were fired by the guardsmen and an unknown man who made his escape.

Little information of the encounter can be obtained as persons living in the vicinity have been instructed not to mention details. According to one report a man was seen on the bridge by one of the guards and when commanded to halt opened fire. The guardsman returned the fire but failed to hit the man who ran from the western end of the bridge and disappeared.

VOLUNTEER PROVISION WINS

Incorporated in Army Bill Which Goes to President Tomorrow.

Washington, May 15.—The volunteer provision is now a part of the army bill. It is expected that action on the measure will be taken today and that it will go to the president for signature tomorrow.

It is hinted that the president may follow the advice of the regular army staff and veto the bill, as the army officers are opposed to the volunteer provision.

Pastor of Brattleboro Baptist Church Going to Philadelphia.

Brattleboro, May 13.—Rev. George E. RUTLAND SEES JOFFRE

5,000 People Assembled at the Railway Station Here.

Rutland, May 13.—Word that the 8:45 train from the north would carry Marshal Joffre through Rutland on his way back to the metropolis from a flying visit to Montreal was rapidly passed about the city this evening and about 5,000 people were at the station to catch a glimpse of the hero of the Marne when the train pulled in.

They were not disappointed for when the train stopped the grizzled veteran appeared on the platform wearing his famous smile which became more pronounced when the assembled crowd burst into a great cheer. The distinguished Frenchman, as soon as it was quiet enough, addressed the people briefly, thanking them for the big reception tendered him on such short notice. He also leaned over the platform rail and enthusiastically shook all hands within reach during his ten minute stay in the Marble City.

WANDERING MAN RETURNS

Hartford Man Reaches Home with Mind Seriously Affected.

Rutland, May 15.—Frank Thompson, for whom the residents of the whole town of Hartford had been searching since May 8, returned voluntarily to his home late Saturday night. There is no doubt but that his mind is seriously affected. The first remark that Thompson made upon his reaching the house was that he didn't know he had caused so much excitement just because he had been away one day.

Shortly after that he said: "I have just got back from three days at Bethlehem," and a little later he remarked that he expected when he left in the morning to find a light burning in the window to guide him home at night. He does not seem to realize that he had been in the woods nearly a week.

With the exception of torn shoes and considerable growth of beard his appearance did not show that he had suffered any great hardship from exposure. His pockets were full of cookies. Thompson did not recognize his employer, Carl W. Cameron, when he saw him. He doesn't seem to know where he had been or what he had done and his answers to questions are vague and uncertain.

DESTRUCTIVE FIRE AT BELLWALLS FALLS WITH BIG LOSS

Starting in Liberty Paper Mill, Causes Loss of \$210,000

COMMUNICATION IS HELD UP

Many Other Lines of Business Suffer Heavily Through the Conflagration.

Bellows Falls, Vt., May 14.—Fire that destroyed the plant of the Liberty paper company here today caused damage of at least \$210,000, cut telephone and telegraph communication between Bellows Falls and Springfield, Boston and New York, and blocked railroad traffic until 4 o'clock this afternoon by destroying ties on the railroad bridge over Saxtons river.

Besides the Liberty paper company, other heavy losers were the International paper company, Cote & Frost, lumber dealers, and Blake & Higgins, paper manufacturers. The Liberty paper company is controlled by the Old Colony trust company of Boston. A. L. Brookhouse is resident manager.

The fire was discovered shortly before noon, and before the department arrived the building, which was about 200 feet long, was in flames. It was one story high along the railroad tracks and three stories in the rear. Soldiers on duty here assisted in removing the books and office furniture, which were the only things saved. The Liberty paper company employed 30 hands and manufactured gummed papers. Its loss is estimated at \$60,000 on its stock and \$20,000 on its building.

The International paper company's loss is reported at \$80,000, of which \$60,000 was on 500 tons of sulphate pulp, which it is almost impossible to buy at the present time. Cote & Frost lost rough lumber, windows and doors and other finished products. Their loss is placed at \$15,000. Blake & Higgins lost \$10,000 in paper stored in the building and \$25,000 in damage to the finishing room of the plant and to pulp and paper loaded on cars. The total insurance is said to be in the vicinity of \$100,000.

Her exact birthplace has no name, but is geographically stated as latitude 77 degrees and 44 minutes and west longitude 76 degrees, the most northerly birthplace of a white child on record. She is interested in aviation and has learned to fly under the tutelage of her father, who is president of the Aero club of America.

JUMPED ON PITCHFORK

Manchester Man Suffers Serious Injury Saturday.

Emery Wheeler of Manchester is at the Rutland hospital critically ill and suffering from injuries he received when he struck on the tines of a pitchfork in jumping into a hay mow at Manchester where he was employed by the Buck Lumber company. The sharp tines penetrated the man's body and tore his flesh badly. He was taken to Rutland Saturday night and underwent an operation. He is said to have a chance of recovery.

Opposition.

The effects of opposition are wonderful. There are men who rise refreshed on hearing of a threat—men to whom a crisis which intimidates and paralyzes the majority, demanding not the faculties of prudence and thrift, but comprehension, immovableness, the readiness of sacrifice—comes graceful and beloved as a bride.—Emerson.

MAY BAN SPECULATION

Some Exchanges Have Already Curtailed Trading in Grain

Chicago, May 15.—The low swell of business disturbance, due to the entry of the United States into the world war broke in a crested wave over the leading grain exchanges of the country yesterday. Today representatives of these exchanges will meet at Chicago to discuss the situation—the high prices of grain, the runaway tendency of the market and the attitude of the government at Washington.

There is among influential Chicago grain men a sentiment that speculation in futures should be absolutely eliminated, either by complete stoppage of the practice or by fixing a maximum price for futures. The sentiment, however, was by no means unanimous. It was reported that the Minneapolis delegation expected at Chicago today would oppose such procedure, despite food regulation measures proposed by congressmen, including Senator Thomas' demand for the closing of all exchanges where foodstuffs are speculated in. Delegations are expected also from Duluth, Toledo and Kansas City.

The immediate effect of the order will be to promote nearly two-thirds of the present officers of the Regular Army.

ACTION BY BECKER VS. ROGERS AND BURGESS

Hearing Held in County Court This Morning

SUIT FOR \$100—VALUE OF HORSE

Agent for Society for Prevention of Cruelty to Animals and Veterinary Defendants.

Hearing was begun in the court building this forenoon in the suit brought by Adolph Becker against Miss Susie Rogers and Herbert W. Burgess to recover damages for the loss of a horse, which was killed through an order issued by Miss Rogers, who is the agent for the society for the Prevention of Cruelty to Animals. The amount of damage is placed at \$100.

The case was originally docketed for trial at the last term of county court, but through an agreement of counsel and at the suggestion of Judge W. W. Miles it was put into the municipal court. Inasmuch as Municipal Judge E. H. Holden would be disqualified because of the fact that his law partner, R. E. Healy, is counsel in the case it was arranged that a municipal judge from some other jurisdiction should preside. Judge T. E. O'Brien of Bellows Falls was assigned to the case and arrived in the village last evening.

Since the adjourning of county court there has been one sitting in the case when the members of the jury were selected. Henry Chase of this village and Frank C. Archibald of Manchester appear for the plaintiff and R. E. Healy and Daniel A. Guiltinan for the defendants.
